

*Transfer of Special Education Students within  
the Special Education Local Plan Area*

---

Special Education student transfers may be granted for one or more of the following:

1. Students who move during the school year may be permitted to remain in the school district of former residence for the remainder of the year.
2. The student requires child care services in the attendance area, subject to classroom space availability.
3. A special instructional program is needed which is not available in the school of residence based on consultation with the administration of both schools involved.
4. The student has definite plans for change in residence and can present satisfactory evidence that the move will be completed during the semester in which an application was filed.
5. Adjustment reasons: a study may indicate a transfer is desirable for the best interests of the student and the school.

All pupil transfers are subject to the following restrictions:

1. Transportation, if needed, will be the responsibility of the parent/guardian where an appropriate program is available in the district of residence.
2. All transfers are subject to cancellation at any time it is determined that the conditions under which the original request was granted no longer apply.
3. The individual LEA or the Tulare County Office of Education reserve the right to assign any student who is granted a transfer, to an appropriate school or class where room or facilities are available.
